

# Bedtime Stories For The Little Ones

UNCLE WIGGILY AND SUSIE'S SAMPLER.

By HOWARD D. GAHIS

"Well, Susie, what are you doing?" asked Uncle Wiggily of the little rabbit girl one day, as he saw her with a needle, thimble and piece of cloth, sitting in a little rocking chair before the fire place. I mean Susie was sitting in the rocking chair, not the thimble, needle and piece of cloth.

"Are you going to sew some buttons on?" the bunny rabbit gentleman wanted to know.

"Not this time," Susie answered with a smile that made her pink nose flash. She was not yet quite old enough to twinkle her nose as Uncle Wiggily did his. She could only flick it here.

"Well, I know you aren't making a doorknob chain or a peanut pudding. I can see that much," went on the rabbit gentleman. "But it looks to me as though you were embroidering some thing, Susie."

"I am," spoke the little rabbit girl. "I'm embroidering a sampler." "What's a sampler?" Uncle Wiggily wanted to know.

"Well, it's a piece of cloth, or canvas, like the side of a sack, the pocket of a coat, or the only piece of cloth, with a needle and bits of silk, I am going to sew, or embroider some letters, some numbers, my name, and my age and the date. That's what the little girls of my day did. They made samplers and some of them kept them."

# Beauty Chats By Edna Kent Forbes

The Day's Mail.

A STEADY Reader—You need a good general hair tonic, in fact, on the scalp three or four times a week. You should also massage the scalp with oil the night before you shampoo your hair, and you should give yourself a gentle massage with the finger tips every night when you take down and comb your hair.

Blue Bell—An article on Agar Agar that was published last week answers your question as how to clear the complexion. You are possibly suffering from anemia, since you are quite a bit under weight. This very frequently is the cause of a bad skin.

M. F.—Your trouble probably is that you do not rinse all the soap out of the hair when you shampoo it. Very few women do rinse their hair thoroughly. The film of matter which you notice when you comb is nothing but soap which has dried on the hair.

A. B. C. D.—Blackheads are as much a result of internal condition as they are of external hygiene. You might use quantities of hot water and soap to get the skin clean, but if you did not finish the treatment by closing the pores with cold water you would have a fine crop of blackheads. The cleansing powder which is to be used instead of soap and in connection with the cold cream massage is made as follows: Corn or wheat starch,

two parts; powdered borax, one part; almond meal, one part.

Jane—You can use the toilet ammonia which you have purchased on any good grade of household ammonia. Equal parts of ammonia and peroxide makes an excellent bleach.

Mickey—There is nothing short of a stain which will darken the eyebrows, and a stain would be as unsatisfactory as an eye brow pencil. In some cases castor oil darkens the hair a few shades. It is put under a young person to have high blood pressure. Your physician—or your dermatologist possibly—would have the apparatus necessary to make the test.

Trixy—Ask your doctor what he thinks might be done to straighten out knock knees.

Dorothy—If you do not like the taste of plain hot water, add a little salt. It is very good for the digest-

tion to drink a cupful of hot water before meals.

Miss Perkins—I cannot tell you what your exact weight should be without knowing your age as well as your height. Somewhere near 115 pounds would be correct for you, I think.

SING SING BARS CANDY.  
Dorothy, N. Y., Feb. 12.—To prevent the annoying effects of sticky, sticky, sticky candy, give of candy to prisoners have been forbidden. "Dope" can be used in place of candy, but its way into the prison, despite the close watch of all packages.

Maize and Kasher Wine for "Passover" will be provided by the Rabbi N. Schechter and B. Cohen.

# Can You Do More Work by Neglecting Sleep

WHEN a man finds himself up against more than he can do, his solution may be shorter hours instead of longer—more sleep instead of less.

There is no greater help to good work, and keen enjoyment in doing it, than plenty of that deep, sound sleep that wakes a man up feeling alive all over.

When a man finds that he is not sleeping properly, he should look to his bed. No one can sleep soundly unless his bed is noiseless and steady.

THE truly noiseless Bed is the Simmons Metal Bed—built for sleep.

Just as the truly sleep-inducing Springs are the Simmons Springs—fine resilient springs that invite the body to relax.

Years ago Simmons Company established the principle of Beds and Springs built for sleep.

It is today the largest maker of fine Metal Beds and Springs in the world.

It is a specialist in Twin Beds—a pioneer in that fine modern

principle of a separate bed for each sleeper.

Simmons Steel Beds, Brass Beds, Springs, Day Beds and Children's Cribs are the most sought after sleeping equipment in leading stores all over the country.

The prices are little if any higher than for any ordinary beds.

And when you are selecting your Simmons Beds with an eye to their appearance in the room, you will see that Simmons has for the first time established beautiful and authoritative design in Metal Beds.

Sleep is a big subject! Write us for the brochure, "What Leading Medical Journals and Health Magazines Say about Separate Beds and Sound Sleep." Free of charge.
